Pacific Truck Introduces New JOST Fifth Wheel & Repair Parts

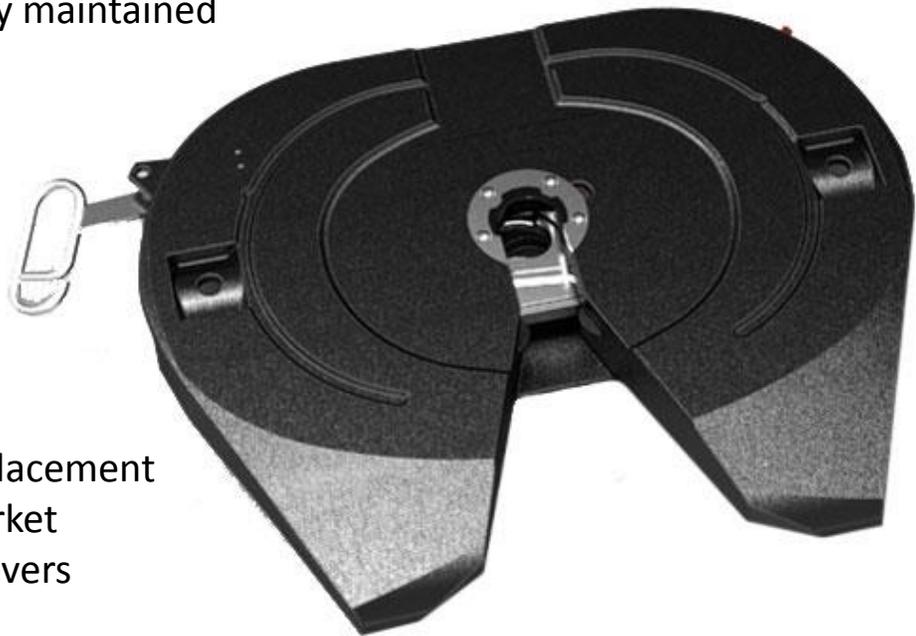

JOST's fifth wheels are the simplest and safest design in the market today. The positive coupling design ensures a true connection. Upon contact, the spring loaded steel locking bar automatically slides into position securing the kingpin.

The forged steel locking bar is supported on both sides of the coupling to ensure even load distribution and increase surface contact to reduce wear. The rubber bracket bushings and composite collars reduce shock loadings and vibration, minimizing torsional stress between tractor and trailer. They offer greater safety and stability, on any road.

JOST's simple mechanism allows infinite adjustments versus competitors' notched adjustments. Wear adjustment is easily maintained with a single adjustment screw.

Features & Benefits

- Exclusive JOST composite cushion ring absorbs kingpin impacts
- Reduced king pin and lock wear
- Easily changed
- No need for 5th wheel topplate replacement
- Lowest pull force handle in the market
- Pull force operation is easier for drivers

A Strong History

JOST has been manufacturing fifth wheel coupling devices globally since 1956, manufacturing for North America from their Greeneville, Tennessee facility since 1999.

JOST has supplied more than three million fifth wheels to the global market with close to a million on the road throughout Canada and the US. Advanced technologies and decreased lifetime cost of ownership have allowed JOST fifth wheels to become increasingly used in heavy duty industries today as an OEM quality replacement.

Making The Change

A couple hours is a long time for a rebuild, a JOST replacement wheel will save you time and money. Instead of rebuilding your old worn out wheel, replace it with a brand new JOST.

Warranty

JOST will not only warrant any unused coverage remaining on your current bracket, but they also provide you a new five year warranty with your new JOST fifth wheel.

JOST Genuine Part Number: 37USL

37HSL Substitution List

Replaces "H" Models			Replaces Kits
FW8	FW2000	FW3501	RK-17-A-L
FW17	FW2500	FWAL	RK-351-A-L
FW35	FW2535		RK-AL-A-L
JSK37HSL will increase 5th wheel height by 3/4".			

37FSL Substitution List

Replaces "F" Models*			Replaces Kits
SL5000	SL6000	SL7000	KIT-RPR-5092L
SL5092	SLH5092		KIT-RPR-7000
JSK37FSL will increase 5th wheel height by 5/16". *Is not compatible with the 7" LWS Series Sliders.
